1400w home solar power system

Overview

Is the eco-worthy 1400W hybrid system right for You?

The Eco-Worthy 1400w hybrid system does a great job when it comes to covering the bases when thinking and planning off-grid power needs. It takes advantage of the sun during the day to keep up with power demands, and relies on a 400 watt wind turbine generator to keep the batteries topped up at night (when the wind blows).

What is included in the eco-worthy 1400W hybrid solar wind kit?

Click here to see price and reviews on Amazon. The Eco-Worthy 1400W hybrid solar wind kit also comes with the following: 16.4 Feet of 12AWG Cables - These connect your solar panels to your charge controller. Z Mounting Brackets - Mounting brackets for solar panels. Y Branch Cables w/MC4 Connectors - To install 2 solar panels in parallel.

Is a 1400 Watt system enough?

A 1400 watt system would be enough to power up the essential appliances you'd find in a smaller living space (TV, small fridge, LED lights, laptop, microwave, etc.) The Eco-Worthy 1400w hybrid system does a great job when it comes to covering the bases when thinking and planning off-grid power needs.

Which Solar System is best for a small home?

If you are looking for a hybrid kit, ECO-WORTHY 1000W 24V expandable hybrid kit is an ideal choice. This system certainly can be adapted to small homes in off-grid systems. A 400W wind generator produces about 60kWh per month in 10.5m/s average winds. ECO-WORTHY 100 Watt 12V Mono solar panel is backed by 25-year linear power guarantee.

Is 1400 watts enough to power a whole house?

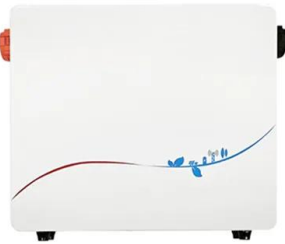

While 1400 watts isn't nearly enough to power a whole house, it does produce

enough watts to power up many of the essential appliances in a small cabin, boat or an RV. You'd need approximately 5-10 Kilowatts to power up the average home, which would cover the furnace, fridge, central air, freezer, washer and dryer, etc.

What is a 400W wind turbine generator?

Shipping calculated at checkout. ·21% High Efficiency: 400W Wind Turbine Generator has a low start-up speed of 5.6mph and can withstand the maximum wind speed is 78.3 mph. Support all day power generation, with utilization rate up to 21%, which solved the problem that solar panels could not work at night or when the sun is not strong enough.

1400w home solar power system
