25-year solar power contract signed

Overview

A Solar Power Purchase Agreement (SPPA) is a financial arrangement in which a third-party developer owns, operates, and maintains the photovoltaic (PV) system, and a host customer agrees to site the system on its property and purchases the system's electric output from the solar services provider for a.

Figure 1 below illustrates the roles of all participants in an SPPA. Adapted from Rachus Institute's "The Customer's Guide to Solar Power Purchase Agreements" (2008). A host customer agrees to have solar panels installed on.

In order to claim a system's on-site solar electricity production towards the Green Power Partnership's green power use requirements, a Partner.

The resources below provide additional information on SPPAs. 1. The Rachus Institute's "The Customer's Guide to Solar Power Purchase Agreements" (pdf) 2. Webinar: Solar Power.

What is a solar power purchase agreement (solar PPA)?

With a solar power purchase agreement (solar PPA), you contract with a solar developer that pays for, installs, and maintains a solar system on your property. The system could include ground-mounted, rooftop, or carport solar panels (or any combination thereof), and it could include an energy storage system.

What is a solar power contract?

A solar contract is a signed agreement between a person and a solar power installation company that clearly outlines every part of the solar panel installation process, including the steps before, during, and after the actual installation, and who is responsible for each.

What should I know before signing a solar contract?

Before you sign the contract, be sure you understand the terms—including what happens if a system component breaks or the manufacturer goes out of business—and don't hesitate to ask questions. Check with your local government to find out if there are any solar consumer protection programs.

What happens at the end of a solar PPA contract?

At the end of your contract, you have the option to extend the PPA, purchase the solar panels at market value, or cancel and have the solar panels removed. Review your contract to evaluate all purchase options and terms. Ending or acquiring an existing solar PPA contract is known as a solar PPA buyout.

Is a solar power purchase agreement a good idea?

Instead, you can enjoy lower energy bills while powering your home with green energy. PPAs may also be a good solar option if you do not have the ability to claim the lucrative incentives or tax credits. How does a solar power purchase agreement work?

.

How does a solar energy contract work?

The details of the solar energy contract will differ depending upon how you intend to pay for your solar panel installation. Homeowners who pay for their panels upfront with cash, or through a solar loan, will see something different than someone who signs a solar lease or solar power purchase agreement (PPA).
