Can you use a 320W monocrystalline solar panel?

Bank with lithium if you can! Primarily used for residential and commercial purposes, rooftop solar power systems are the perfect way to decrease an electric bill. Also great for large off-grid systems, the 320W Monocrystalline Panel can be used in multi-panel solar arrays for cabins and sheds.

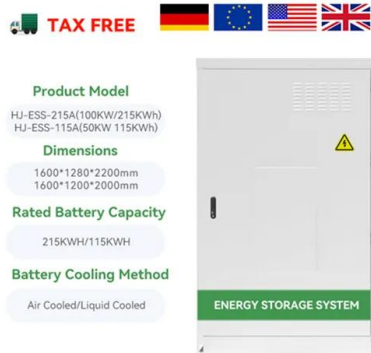

What is a hit N320 solar panel?

The 96-cell high-efficiency HIT N320 solar panel provides your home with a powerful combination of immediate energy savings, long term performance, and sleek beauty. A remarkably low temperature coefficient of  $-0.258\%/^{\circ}\text{C}$  helps generate greater electricity output even on the hottest days.

Are 320W solar panels worth buying?

I bought 6 of the 320W panels 3 years ago for an off grid cabin. They were on sale! I am now retired living there full time. I was surprised how much power they produce when it is cloudy. One benefit on a cloudy day is the clouds diffuse light and the panels generate power long before or after they normally would but with reduced output.
