# 7 Days to Die 16 Solar Generator

## Overview

---

Can you use a generator in 7 days to die?

Game Rant Generating power can help to make things easier in 7 Days To Die. Things like generators and solar banks can be used to power up all sorts of items, such as lights and turrets. While setting up and using powered devices may seem difficult at first glance, it is actually relatively straightforward.

Can a solar bank be used in 7 days to die?

Unfortunately, I got a little ahead of myself and tried clearing out US Army Post 7 with just a Desert Eagle and a stun baton. Be the first to post your thoughts. Solar Banks are rare in 7 Days to Die, but they can be invaluable in setting up and running powered devices.

What happens if a Gen or solar battery goes dead?

Start at Gen or Solar and connect to the Battery Bank. Run your circuit from the Battery Bank to the rest of your devices. The Battery Bank will turn on if the Gen or Solar goes dead. (IE Out of gas or no sun light) Once the batteries are dead they will need to be recharged, or replaced.

Can a solar cell operate during the day?

Solar Cells can only operate during the daytime. During the entire daytime, a Solar Cell will operate at its full capacity regardless of weather, shadows, or which direction the Solar Bank is facing. However, the Solar Bank needs to be placed with no blocks blocking the sky directly above it.

What happens if a Gen battery dies?

Once the batteries are dead they will need to be recharged, or replaced. Add more fuel to the Gen (or wait for day) and the main power source will come back on and in turn, replenish your batteries. Remember that electricity flows from your first click to your second click.
