76 photovoltaic panels

Overview

The scavenged solar panel is a C.A.M.P. and workshop object in Fallout 76, introduced in the One Wasteland For All update.

The solar panels, like the windmill, are designed to be a more environmentally-friendly form of power. Also like the windmill, the solar panels will produce 5 units of power each.

Craftable at any owned C.A.M.P. or workshop once the plan is learned.

The scavenged solar panel was created by Christopher Percle.
