

European Solar and Energy Storage Solutions

Advanced battery solutions Poland

Overview

Who is Advanced Power Solutions?

Advanced Power Solutions (APS) is a leading producer of premium quality batteries, with production site located in Poland: Gniezno. Our mission is to provide easy, safe, and sustainable mobile energy solutions. We aim to create a powerhouse of brands that improve consumers' daily lives, all while ensuring environmentally responsible production.

Who makes Advanced Power Solutions batteries?

The Advanced Power Solutions plant in Gniezno is well known for its production of Zinc Carbon and Alkaline batteries. The Gniezno plant has a rich history dating back to 1993. Our plant in Poland takes care of the production, development and packaging of Zinc Carbon and Alkaline batteries.

What is the largest battery plant in Europe?

It built the first battery production plant in Europe and the largest in the world on approximately 1,000,000 square meters of land. The LG Energy plant in Wroclaw, Poland, has an annual capacity of 86 GWh, which is enough to power approximately 1.2 million electric vehicles.

Why did LG choose Poland for its EV battery production system?

For these reasons, LG Energy Solution has chosen Poland as the primary production base for its global EV battery production system. It built the first battery production plant in Europe and the largest in the world on approximately 1,000,000 square meters of land.
