

European Solar and Energy Storage Solutions

Advanced energy industries Guyana

Overview

What is Advanced Energy Industries?

Advanced Energy Industries, Inc. is a company that primarily develops power and control technologies for various industries, including solar cells. They also develop technologies for the manufacture of semiconductors, flat panel displays, data storage products, industrial coatings, medical devices, and architectural glass.

Where is advanced energy made?

Founded in 1981 in Fort Collins, Colorado, USA, by Doug Schatz, Advanced Energy operates in regional centers in North America, Asia, and Europe, and offers global sales and support through direct offices, representatives, and distributors. The company has manufacturing facilities in the U.S., EMEA and Asia.

What makes advanced energy unique?

Advanced Energy's rich legacy of innovation and technological expertise, coupled with a diverse range of proprietary products and a global team of technical professionals, enable us to effectively address the most complex power delivery challenges faced by our customers around the world.

Did advanced energy acquire Artesyn embedded power business?

"Fort Collins-based Advanced Energy acquires Artesyn Embedded Power Business, creating \$1.3B company". The Coloradoan. ^ "EE student wins Advanced Energy Scholarship".

News & Events

Advanced Energy has unveiled the industry's first Modular Hardware System Common Redundant Power Supply (M-CRPS) capable of delivering 1800 W in the industry's new, ultra compact 60mm x 185mm form factor. News. Advanced Energy's AI Power Solutions at 2023 OCP Global Summit. October 17, 2023

Advanced Energy shapes and transforms how power is used, delivered, and managed. Advanced Energy has devoted decades to perfecting power for its global customers. We design and manufacture highly engineered, precision power conversion, measurement, and control solutions for mission-critical applications and processes.

Reshaping Guyana's energy landscape

At the core of this project is the Combined Cycle Power Plant, designed to generate a substantial 300 megawatts (MW) of electricity -- enough to power thousands of homes and industries across Guyana. These advanced turbines are expected to not only increase Guyana's energy capacity, but also enhance its efficiency, as they will run on

Acquired Technologies

Advanced Energy acquired Monroe Electronics, Inc. in 2018. Monroe's industry-leading electrostatic detection and measurement products provide reliable solutions for ionization system testing and monitoring. The line offers both non-contact electrostatic voltmeters and fieldmeters. Trek Advanced Energy acquired Trek in 2018.

Produkte

Advanced Energy gestaltet und verändert die Art und Weise, wie Energie genutzt, geliefert und verwaltet wird. Unsere langjährige Innovations- und Technologieführerschaft, unser breites Portfolio an firmeneigenen Produkten und unser weltweites technisches Know-how helfen unseren

Kunden bei der Lösung ihrer anspruchsvollsten Probleme im Bereich der ...

Manufacturing

Industry 4.0 utilizes ever increasing amounts of automation and testing equipment. From robotics for handling, instrumentation for measurements, sensors for monitoring and devices for process control, Advanced Energy's broad and expanding portfolio of products, components and services solutions can satisfy many of the requirements.

About AE

Advanced Energy Industries GmbH (Power Control Modules) Lise-Meitner-Str. 19 Warstein-Belecke, Germany 59581. Wilmington, Massachusetts. Service, Design. Advanced Energy Industries, Inc. 200 Ballardvale Street, Building 2 Wilmington, MA USA 01887. Xi'an, China. Service, Design

Israel

Easily access sales support and custom design expertise locally at Advanced Energy's facility in Caesarea. Whether you're looking for off-the-shelf components, a fully-custom solution, or something in between, AE brings global expertise to support Israel's high-tech markets. Advanced Energy Industries Israel Ltd. 19 Tarshish Street

How to Buy

Advanced Energy shapes and transforms how power is used, delivered and managed. Our long history of innovation and technology leadership, broad portfolio of proprietary products and global technical talent help solve our customers' most challenging power delivery problems for: Semiconductor Equipment; Industrial and Medical Product; Data Center
