

## European Solar and Energy Storage Solutions

# Agam greenhouse energy systems Andorra

 **TAX FREE**    

## ENERGY STORAGE SYSTEM

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

### About AGAM

AGAM Energy Systems Ltd. designs, develops and manufactures air conditioning and dehumidification systems. Greenhouse effects caused by these gases warm our planet thus endangering the existence of its inhabitants. Our goal is to reduce fuel consumption by introducing new and more efficient technologies and machines.

### Agam Greenhouse Energy Systems

Agam Greenhouse Energy Systems works to solve humidity-related concerns, including botrytis and mildew, while reducing energy and fungicide expenses. Based on hygroscopic patents, the machines take humid air from inside the greenhouse and transform water vapor into water and heat by passing it through a matrix of desiccant-filled elements.

## Agam Greenhouse Energy Systems

Agam Greenhouse Energy Systems Follow Following Location: Israel " Agam's Ventilated Latent Heat Converter (VLHC) is a revolutionary patented, field-tested dehumidification system for cold-climate greenhouses. It solves humidity-related problems, including yield-damaging botrytis, while actually reducing energy and fungicide expenses.

## About us

Founded in 2009 by industry veterans with a total of over 75 years of expertise, Agam develops and manufactures innovative, energy-conserving and environmentally friendly dehumidification, heating and cooling systems. Agam's solutions serve the needs of horticultural and agricultural industries, including nurseries and recently developed

????????? ??? LinkedIn. dehumidification and filtration of airborne spores in greenhouses + dramatically reducing energy costs and CO?

emission , Our technology enables air circulation with closed thermal screens or without window ventilation, providing optimal and uniform humidity and temperature conditions, whilst dramatically ...

## agam-greenhouses

The system receives its energy supply out of the electricity system, as well as the heating system located in the greenhouse. Heating system must supply hot water at a temperature of 850 C, at capacity of 5 M3/h and at a pressure of 10 M head of water. Electrical current of 20A.

## AGAM Greenhouse Information

For AGAM Greenhouse, press here. AGAM is developing a proprietary Liquid Ring Rotating Casing Steam Turbine (LRRC ST) that can generate electricity from waste heat, starting at 90c hot water or 100c steam, currently thrown away to the atmosphere

## Agam Greenhouse Energy Systems-????(??)???? ...

Founded in 2009 by industry veterans, Agam develops and produces innovative, energy-conserving and environmentally friendly cooling, heating and dehumidification systems. Agam's solutions serve the needs of both the industrial and the agricultural sectors, including greenhouses, indoor cultivation and seed and

grain warehouses.

## dev\_admin, ???? ?-Agam Greenhouses

AGAM Greenhouse Energy Systems is proud to have our machines marketed to many agricultural growers around the world, and distributed by a network of hard-working 2021 energy crisis - AGAM Greenhouse Energy Systems (published on HortiDaily)

## About AGAM

AGAM Energy Systems Ltd. designs, develops and manufactures air conditioning and dehumidification systems. Innovative technology puts our products as the most competitive in the many applications requiring control of air temperature and low humidity.

## Agam Greenhouse Energy Systems , ConnectAmericas

Agam Greenhouse Energy Systems develops micro-climate energy-conserving, dehumidification, heating, and cooling systems for the agricultural, horticultural, and cannabis industries. The company's Ventilated Latent Heat Converter and Hybrid Air Condition
