Akcome solar panels Maldives

Overview

What are AKCOME solar panels?

AKCOME solar panels are high efficiency photovoltaic modules adapted to all available assembly systems. They have a rigid, thick 30 mm frame with double solar glass and bifacial cells that make them suitable for roof and ground assembly, carports, and elevation. AKCOME is also a solar racks producer.

What are akcome solar modules & mounting systems?

Akcome has launched a series of solar modules and mounting systems to meet the diverse needs of the market. Akcome's PERC series solar modules have excellent low-irradiance performance and stability, with increased energy yield for a better return.

Does akcome manufacture solar panels?

The company manufactures solar panels (polysilicon and monosilicon) and the mounting structures uses to install panels onto roofs. Akcome has 2 production facilities in China. The company has been publicly listed on the Chinese Stock Exchange (SZ 002610) since 2010.

Are akcome PERC solar modules a good choice?

Akcome's PERC series solar modules have excellent low-irradiance performance and stability, with increased energy yield for a better return. We not only supply standard mounting systems but also customisable roof and ground mounting systems to meet any requirements "Subject to the terms and conditions contained in the applicable Warranty Statement.

Are AKCOME solar panels flammable?

AKCOME Optronics' HJT photovoltaic panels are non-flammable. AKCOME is one of the best and reasonable choices for premium solar panels in HJT technology. The Hi-Chaser Series have achieved a record power production,

more than 90% after 30 years.

Does akcome solar offer a warranty?

Akcome Solar offers 25 years performance warranty for all ranges (excluding double glass) with a guaranteed output of 80.7% (for polycrystalline modules) and 80.68% (for monocrystalline modules) after 25 years which leaves them towards the minimum expectation of the market.
