

European Solar and Energy Storage Solutions

Aquionenergy Haiti

Overview

Aquion Energy was a and -based company that manufactured () and systems. The company claimed to provide a low-cost way to store large amounts of energy (e.g. for an electricity grid) through thousands of battery cycles, and a non-toxic end product made from widely available material inputs and which operates safely and reliably across a wide range of t.

Who is Aquion Energy?

Aquion Energy was a Bethlehem, Pennsylvania and Washington, D.C. -based company that manufactured sodium ion batteries (salt water batteries) and electricity storage systems.

What happened to Aquion Energy?

In March 2017, Aquion Energy filed for voluntary bankruptcy under Chapter 11. In June 2017, bidding starting with a stalking horse offer of \$2.8 million from an Austrian battery firm, BlueSky Energy.

When did Aquion Energy become a chemistry?

Aquion Energy was spun out from CMU in late 2009 after the first-generation version of the AHI chemistry was developed in the labs at CMU in 2008 by Dr. Whitacre, who graduated from Oberlin College in 1994 with a BA in Physics.

When did Aquion Energy start production?

Under the leadership of CEO Scott Pearson, Aquion began low volume production in the summer of 2011 and broke ground on a full-scale manufacturing facility in nearby Westmoreland, PA in 2012.

Who invented the Aqueous Hybrid Ion battery?

Dr. Jay Whitacre began researching low-cost electrochemical approaches to bulk energy storage at Carnegie Mellon University in 2007. In 2008, he produced the first functioning Aqueous Hybrid Ion (AHI) battery.

Aquion Energy's Origins, Story, and Mission and Values

Aquion Energy is the manufacturer of proprietary Aqueous Hybrid Ion (AHI(TM)) batteries and battery systems, optimized for stationary and long duration daily cycling and energy storage applications. This includes off-grid and microgrids, energy management, and grid-scale energy storage applications.
