Torus Unveils Integrated Energy Storage and AI-Driven ...

...

About Torus: Founded in 2021, Torus is a Utah-based energy solutions company dedicated to making energy storage and management more efficient, affordable, and sustainable. With a focus on American

Argentina's Eoliasur seeks enviro permit for 200-MW BESS in Chile

Argentina's Eoliasur seeks enviro permit for 200-MW BESS in Chile. Dec 11, 2024, Battery energy storage systems (BESS) The company seeks to install the BESS, called Charruana, at a site in Cabrero in the Biobio region. Investment in the project is estimated at USD 135 million (EUR 142.1m), Eoliasur said in the permit application.

- High energy density and long cycle life
- Modular structure

- No need to replace the battery
- Shorter charging time.
- Meets #1EV car

Torus Secures \$67M in Venture Financing to Advance ...

Energy Storage: Torus Flywheel(TM) energy storage is strongly differentiated from chemical batteries because it is 95 percent recyclable, unaffected by ambient temperature fluctuations, and provides a 25-year ...

World's largest flywheel energy storage connects to China grid

Every 12 units create an energy storage and frequency regulation unit, the firm said, with the 12 combining to form an array connected to the grid at a 110 kV voltage level. (BESS) technology. In the US, real estate firm Gardner and technology provider Torus recently agreed to deploy flywheel-BESS hybrid projects together at commercial

Torus Unveils Integrated Energy Storage and AI-Driven ...

Torus, a leader in advanced energy storage and management, unveiled a suite of innovative commercial solutions designed to revolutionize grid stability, enhance cybersecurity, and address critical national security challenges at the 47G Zero Gravity Summit in Salt Lake City, Utah. The new product lineup tackles the growing concerns of grid instability and cyber threats ...

Torus unveils flywheel, battery energy storage, AI-driven ...

From ESS News U.S.-based storage specialist Torus has recently showcased its new energy storage and cybersecurity solutions. The product lineup, which was presented at the 47G Zero Gravity Summit in Utah in late October, capitalizes on the company's vertically integrated flywheel technology, which sets it apart in the commercial energy storage market.

Non-lithium energy storage firms Torus and Alsym raise

\$145m

US-based startups Torus and Alysm Energy have raised a combined US\$145 million to scale up their non-lithium energy storage technology businesses. Utah-headquartered Torus has raised US\$67 million in new equity, conversion of outstanding notes and a loan facility in a round led by Origin Ventures with participation from Epic Ventures, Cumming

Torus Secures \$67M in Venture Financing to Advance Energy Storage ...

Energy Storage: Torus Flywheel(TM) energy storage is strongly differentiated from chemical batteries because it is 95 percent recyclable, unaffected by ambient temperature fluctuations, and provides a 25-year service life. This enables the commercial or industrial sectors to sustain operations via short--and long-duration demand response profiles.

Torus unveils flywheel, battery energy storage, AI-driven ...

The product, called Torus Nova Spin, is an advanced Flywheel Energy Storage System (FESS) offering rapid response capabilities for grid stability and backup power. Unlike traditional batteries, which rely on chemical reactions, the Torus Nova Spin stores energy mechanically by spinning a rotor at high speeds.
