Engysol - Solar Aruba - Energy Saving Solutions

SOLAR PANELS INSTALLED IN ARUBA. Lower your monthly electricity bill with one of our solar back up packages. Basic plan 120 V. Save up to 65% on electricity bill. Advanced 120 v / 220 v. Solar water heaters can be a cost-effective way to generate hot water for your home. They can be used in any climate, and the fuel they use, sunshine, is free.

Solar Energy in Aruba: Missing the Green Wave

Streamlining the solar energy approval process is the first and most crucial step. Encouraging more businesses and homeowners to invest in solar will help Aruba reach its renewable energy goals and attract eco-conscious tourists. Aruba has the potential to be a leader in green energy and sustainable tourism, but decisive action is required today.

Aruba projects - SDG Aruba

Smart Community Aruba (SCA), a 20 unit residential neighborhood aimed at sustainable living, is now inviting partners to research, test and demonstrate sustainable technology. Key objective is knowledge development relating to scalable technology solutions and business models to help make Aruba's transition to sustainable energy a reality.
