Assembly diagram of solar bracket with three legs

Overview

What does a tilt leg kit include?

Each Tilt Leg Kit comes with the shorter front leg, the longer rear leg, mounting brackets and hardware. As with our Fixed Tilt Legs, the Adjustable Tilt Legs attach directly to IronRidge XR Rails. Each Tilt Leg Assembly kit comes with the shorter fixed front leg, the longer adjustable rear leg, and all the necessary hardware.

Why should I Choose Titan Solar Roof mounting system?

Thank you for choosing the Titan solar roof mounting system. Made from custom-built aluminum extrusions and components, Titan Solar's innovated design and improved frame strength greatly simplify solar panel installation. The easy installation four steps make the D-Modules can be put into the D Rail on any position quickly.

How much slope can a Titan Solar System Support?

In this case, two feet can support a rail of as much as 2400mm (1200mm between the feet and 600mm of overhang at each end). Titan solar system can be used for roof slope up to 60 degrees. slope should be between 0 degrees and 60 degrees.

How do I install a solar PV module?

Please contact Titan Solar for installing PV modules with a greater length then 2000mm. Each foot should be fixed to the purlins using at least 2-12g(6mm) screw through sheet metal roofs with gasket. Please note that the screws provided with our products are designed for mounting in to wooden structures (10TPI).

Which solar panel clamps do I Need?

SolarRoof™ has suitable mid and end clamps for every size of solar panel including frameless, thin film panels or special clamps for cyclonic regions. In

the growing range of clamps, cable clips, adapters and accessories you're sure to find genuine parts you require for your residential solar rooftop mounting needs.

What is a solar module clamp?

Module Clamps are Type 304 stainless steel for higher yield strength and durability. Pre-assembled module clamps feature no loose parts and a spacer that keeps free standing clamps in place for a quicker module installation. Patented. Note: Replace xxx with module depth from the Solar Module Specification Sheet.
