Generating a sustainable, low carbon future

Offshore Limited, an equal joint venture between Red Rock Power and ESB - will see up to 72 turbines constructed 15 km off the Angus Coastline in the East of Scotland, with an installed capacity of around 1 GW. Once complete, it will become one of the country's largest single sources of renewable energy and power up to 1 million homes.

Interview: Red Rock Power's CEO Guy Madgwick

SDIC Power is part of state-owned SDIC, but Madgwick says the company decided to call SDIC Power's European arm Red Rock as it wanted the business to be more independent of its parent group. But Red Rock will be able to draw on

SDIC's financial firepower, which owns assets of more than \$75bn and reported revenues of \$15.5bn in 2017.

Cloud

Cloud is an operational 240.8 MW onshore wind farm in central Sweden expected to generate 805.5 GWh per year. The project has a 29-year PPA with Norwegian aluminium producer, Norsk Hydro, as well as a 10-year PPA with NEAS energy for the remaining generation, powering around 40,000 homes. Red Rock Renewables first acquired interests in ...
