Tecnologías innovadoras renovables, ambientales y térmicas » Babcock ...

Babcock & Wilcox existe para CO2laborar con el enfoque único de ayudar a que los clientes generen energía más limpia. Para ello, utilizamos tecnologías de descarbonización comprobadas e innovaciones en la generación de energía y el control de emisiones.

Babcock: Creating a safe and secure world, together

Babcock across the world. Babcock plays a critical role in international defence. In a world of significant geopolitical instability, national security has never been more important as defence requirements become increasingly complex to deliver.

BrightLoop(TM) Low-Carbon Hydrogen Production

The BrightLoop technology is a novel chemical looping process that is based on the oxidation and reduction of an oxygen carrier particle. The feedstock reacts with oxygen-carrier particles in a fuel reactor, forming reaction products which are predominantly CO₂, while reducing the oxygen-carrier particles. The reduced oxygen-carrier particles then move to a hydrogen reactor where ...
