Backup home generator Belgium

Overview

Do you need a portable home backup generator?

Prepare for any outage with a portable home backup generator. When the power goes out, a Generac portable generator will keep your fridge running, the AC on and your mind at ease. Browse our portable power solutions. These high-output powerhouses can easily handle outages—and everything else.

How much does a home Generator cost?

Typically, home generators cost anywhere from around \$500 for small models that can power a few appliances to over \$1,500 for larger devices that can re-power your entire home. To help you select the best home generator for your needs, the This Old House Reviews Team put together this guide of the top home generators on the market.

Can a whole-house generator save you money?

You might have also had to repair frozen and burst pipes, or an unpowered sump pump might have led to a flooded, moldy basement. Those costs can be avoided if you have a whole-house generator. In fact, savings from a single outage can more than recoup your investment in a home generator.

How do I safely use my home generator?

Here are some critical steps you should take to ensure that you're using your home generator safely: Don't operate a gas generator in an enclosed area, such as a garage or shed, as this can lead to carbon monoxide buildup. Use a fuel stabilizer when you're storing gasoline for an extended period of time, as destabilized gas can be a fire hazard.
