Bahrain quadruples mangroves and expands solar energy ...

Bahrain is planting four times more mangrove trees and expanding solar energy projects as part of its bold push to slash carbon emissions and secure a cleaner future. Responding to formal question by Shura member Talal Al Mannai, the Ministry of Oil and Environment described its National Energy

Bahrain

According to official sources, Bahrain's energy efficiency will improve as government ministries implement the NEEAP, primarily through a new green building code permit for all new construction. Bahrain will have to produce 280 megawatts of electricity from renewables by 2025, increasing to 710 megawatts by 2035, to meet the country's

20 June 2023 (Manama, Kingdom of Bahrain): His Excellency Engineer Kamal bin Ahmed Mohammed, President of the Electricity and Water Authority (EWA), announced that the Kingdom of Bahrain has started implementing its National Energy Transition Plan, which aims to increase renewable energy resources' share in the Kingdom to 5% of Bahrain's total

Bahrain unveils National Energy Strategy to achieve net zero ...

Manama, Nov. 30 (BNA): Bahrain unveiled its National Energy Strategy: a clear, credible, and responsible pathway to reaching the climate targets the Kingdom pledged to achieve at COP26, namely a 30 percent reduction in emissions by 2035 on the road to net-zero emissions by 2060.

Annual Report 2022

Bahrain's position in the world - economically and graphically - is a natural choice for global manufacturers to invest in new projects. In 2022, a diverse range of businesses set up new. Prioritising projects covering key priority sectors like Energy, Tourism, Logistics, Finance, Telecoms, and IT will help support current and future
