

European Solar and Energy Storage Solutions

Barbados energy full co ltd

Overview

Why should Barbados invest in the energy sector?

The energy sector in Barbados should be invested in to foster development, promote energy security, reliability, affordability, and establish and maintain a sustainable sector. This can be achieved through innovation and workable partnerships which promote a strong economy and a healthy environment.

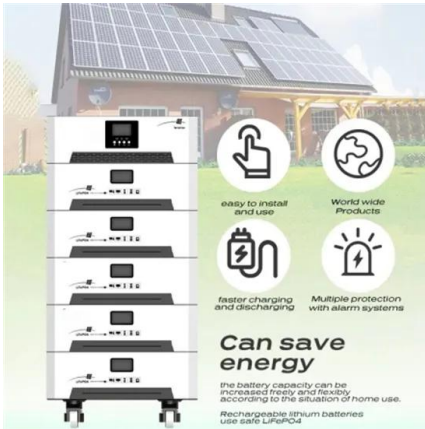

Who drilled the first oil well in Barbados?

The first oil well in Barbados was drilled by Conoco at Sandy Lane 1Z during the first offshore licensing round. Woodbourne Oil Field was discovered, the Solar Water Heating industry was developed, the Energy Division was established, the National Petroleum Corporation was established, and the Barbados National Oil Company Limited was established.

Why is environmental sustainability important for the energy sector in Barbados?

In the Ministry of Energy and Business in Barbados, environmental sustainability is significant in their programmes because it recognizes the impact on the Barbadian economy, considering the strengths, weaknesses, opportunities, and threats.
