

## European Solar and Energy Storage Solutions

# Barefoot solar power generation

## Overview

---

Who is barefoot power?

Barefoot Power is a leader in the design, manufacturing and distribution of solar powered assets that enable sustainable lifestyles and generates income to off-grid/ weak-grid households and communities in Africa and South Pacific.

What is a barefoot go portable solar light?

The Barefoot Go portable solar light has been specifically designed to meet the needs of rural markets. Barefoot Power are innovators in solar – they were the first, and best, to lead the charge in the solar home system and connected accessory markets.

Why does the Barefoot College use solar energy?

The Barefoot College uses solar energy to provide self-reliant solutions within village communities, boost income for the poor, protect and sustain the environment by reducing carbon emissions and not cutting down trees, and create employment for the unemployable.

What is Barefoot Connect?

Barefoot Connect provides durable, convenient, and affordable solar home systems for household lighting and power for appliances like mobile phones, radios, and Barefoot TV fans. All Connect systems come with both 12V and 2 x USB power outlets. They will provide lighting for two to nine rooms/lighting points depending on the system.

What is a barefoot portable solar lamp?

The award winning Barefoot Firefly portable solar lamp has undergone technical improvements to improve the durability and longevity of the product. The Barefoot Go portable solar light has been specifically designed to meet the needs of rural markets.
