Intilion, Primeo to install 65-MWh storage facility in Switzerland

German energy storage solutions provider Intilion said on Monday that it will build a 65-MWh battery storage system in Switzerland for local energy supplier Primeo Energie. Primeo will use the facility in Kappel, the canton of Solothurn, to temporarily store electricity and withdraw it again when it is needed, thus stabilising the Swiss power grid.

100% renewable energy.

In fact, rail is the most climate-friendly mode of transport after human-powered mobility. Rail travel causes only 0.3 percent of the total CO₂ emissions generated by transport in Switzerland. To move 17% of passenger traffic and 38% of freight traffic, rail transport uses just 5% of the energy consumed by road transport in Switzerland.

Campus Forster

Baumann Consulting provided a detailed energy simulation service for Forster Campus, Forster Profilsysteme AG's new 178,680-SF headquarters in Romanshorn, Switzerland. Forster

Profilsysteme AG, a company specializing in the production of high-quality doors, windows, and façade systems, is in the process of constructing its brand-new
