Application scenarios of energy storage battery products

Well of Innovation

Kenera has developed tools to aid our crews and make procedural compliance a choice that people consciously take. Our innovations in this area support personnel in making the right choice with the right information and with the understanding that a course of action will affect not only their own safety, but the safety of others and the overall

"I have worked with the Kendra Energy Solutions team, particularly Chris Mills and Dave Manwaring, for over 20 years and I can highly recommend Kendra as a BMS support partner. The BMS controls and application knowledge within the team at Kendra is second to none and when we have had faults occur with our building management systems, they

Suzanne Steele

Rebecca Clarke, SVP Kenera, (KCA Deutag's technology and energy transition business), gives her thoughts and insights. It's my belief that women encounter numerous hurdles in the energy sector, particularly in achieving senior and technical roles where they are currently underrepresented, with only 32%[1] of middle management roles held by

About Kenera

Whether it's providing trained technicians to support services and maintenance, fit-for-market engineering solutions for on and offshore energy facilities, or component manufacturing for renewables and hydrocarbons, we have the expertise and experience to meet your needs.

Urenco selects Kenera for Battery Energy Storage System

The award will see Kenera custom-build a 10.3 Megawatt Hour (MWh) BESS that will optimise energy efficiency at Urenco's facility in Gronau, Germany, supporting a reduction in energy costs and carbon emissions. Urenco will utilise the system to help store electrical energy from an integrated solar farm at the plant to enable that power to be
