

## European Solar and Energy Storage Solutions

# Bess supplier China

## Overview

---

What does Bess stand for?

The China Battery Energy Storage System (BESS) Mar. Cushman & Wakefield has released its China Battery Energy Storage System (BESS) Market - New Energy for a New Era report.

Does Kehua have a Bess or PCS technology?

Projects that new entrant Kehua has provided BESS or PCS technology for, with one in Brazil in the top left and the three others in China. Image: Kehua. BloombergNEF (BNEF) has launched its Energy Storage Tier 1 list of providers, noting growth in new players from the China market.

Will China's Bess market take off in 2022?

In terms of BESS infrastructure and its development timeline, China's BESS market really saw take off only recently, in 2022, when according to the National Energy Administration (China) and China Energy Storage Alliance (CNESA) data, new energy storage capacity reached 13.1GW, more than double the amount reached in 2021.

Is a Bess only system integrator a good idea?

“Being a BESS only system integrator is an advantage when there is oversupply in the market, allowing those companies to purchase lower-cost cells when they are abundant likely lower than if they were to manufacture it themselves (current situation now).

What is a Bess battery & how does it work?

When energy is needed, it is released from the BESS to power demand to lessen any disparity between energy demand and energy generation. BESS types include those that use lead-acid batteries, lithium-ion batteries, flow batteries, high-temperature batteries and zinc batteries.

Where does Bess development financing come from?

Finally, BESS development financing globally thus far has stemmed from various sources: funds, corporate funds, institutional investors, or bank financing. In China, some of these funding means have also been utilized.
