

European Solar and Energy Storage Solutions

Bosnia and Herzegovina energy island

Overview

Why is the energy sector important in Bosnia & Herzegovina?

As one of Bosnia and Herzegovina's (BiH) most important export sectors, the energy sector has the potential to be a major engine for economic growth in BiH. The sector is also relevant for the country's accession to the EU, as development of competitive energy markets is required by the EU and the Energy Community Treaty.

Should Bosnia & Herzegovina cap energy consumption?

To boost energy efficiency and energy savings, it also needs to cap primary energy consumption at 6.5 Mtoe and final energy consumption at 4.34 Mtoe by 2030. In mid-2023 Bosnia and Herzegovina published a draft National Energy and Climate Plan.

Will Bosnia and Herzegovina build a new hydropower plant?

As well as new coal capacity, Bosnia and Herzegovina plans a large amount of new hydropower, which is proving even more controversial than the coal plants. In the last decade, more than 100 small hydropower plants have been built, causing widespread public resistance in places like Fojnica, Kruščica and on the Neretvica and Buna.
