Overview

What is a solar racking mounting bracket?

Mounting brackets are heavy-duty equipment, usually made from stainless steel or aluminum. All solar racking and mounting products, whether for the rooftop or ground, must meet strict guidelines to ensure durability and structural integrity to withstand high winds and weather events.

What are the best solar mounting and racking brands?

The top two high-quality solar mounting and racking brands are: Originally, IronRidge supported mostly small, off-grid projects. But today, IronRidge is known for its uniquely shaped and durable XR rail series for pitched roofs. They have equally great options for flat roofs and ground mounts, as well.

Who is solar stack?

They have both residential and commercial solutions for any size. Solar Stack is proudly American-inspired and American-made, providing homeowners and businesses with high-quality solar panel mounting systems that are built to last.

Do rooftop solar panels need racking?

Mounts and racking are an essential component in a rooftop solar system. As the industry has expanded rapidly in recent years, the technology used to mount solar panels to residential rooftops has experienced incredible innovation and rapid growth.
