## Overview

---

Are solar power plants a reality in Cameroon?

The facilities, which have been in service for several months, serve the northern part of Cameroon. Large-scale solar energy production is now a reality in Cameroon. On Friday 22 September 2023, Cameroon's Minister of Water and Energy Gaston Eloundou Essomba inaugurated two photovoltaic solar power plants in the Far North and North regions.

Who developed Cameroon's first large-scale solar PV plant?

The facilities - which serve as the first large-scale solar PV plants in Cameroon - were developed by renewable power producer Scatec and commissioned by Cameroon's national electricity utility, Eneo.

How will the Maroua and Guider solar power plants help Cameroon?

The Maroua and Guider solar power plants will also help diversify Cameroon's electricity mix. This Central African country has an installed capacity of 1.6 GW produced essentially from hydroelectric installations and thermal power stations that are very polluting and costly in terms of operation and maintenance.

Who owns Maroua & Guider solar project?

The company that is developing the Maroua and Guider solar project in the northern part of Cameroon is owned by the Norwegian Independent Power Producer (IPP) Scatec, the Israeli-American Izuba Energy and Sphinx Energy, a company owned by a Cameroonian businessman based in the United States of America.
