Can a small locker be placed directly opposite the door

Overview

The locker or the almirah in the locker room should be placed in the south side of the room. The locker should be placed against the south wall, facing the north wall. Do not place the locker in the north-east, south-east and north-west corner as it can lead to unnecessary expenditure.

The locker or the almirah in the locker room should be placed in the south side of the room. The locker should be placed against the south wall, facing the north wall. Do not place the locker in the north-east, south-east and north-west corner as it can lead to unnecessary expenditure.

Do Not Keep Locker In The Southeast And Southwest Corners. According to Vastu Shastra, the locker should always be kept at least one inch ahead of the wall except in the southeast and southwest corners. The room where the locker is kept should have only one entrance. Apart from this, the main door in this room should be made of two doors.

Always place the locker at least 1 inch away from the wall to let the cosmic vibrations freely circulate in the room and keep the locker at least 1 foot away from the northwest and southwest corners. Avoid placing the locker directly in front of the door or window as it will increase the outflow of wealth.

Locker should be kept in the South West portion of the house. It should be kept in the south West corner leaving the wall from both sides by 1 ft. Face of the locker should be in North as North is supposed to be the area of Kubera. If North is not possible at all then East facing can be done.

According to mirror Vastu for homes, they must never be placed directly opposite the main entrance, as you don't want to reflect away good energy. It's advisable to place a mirror at a right angle to the door to allow it to reflect positivity into the house. Which direction should a locker be placed?

According to Vastu, a locker should be placed in the north direction, as it is associated with Lord Kubera, the God of wealth. The door of the locker room or the room where the locker has been placed should also face north or east.

How many doors should a locker have?

According to Vastu Shastra, the locker should always be kept at least one inch ahead of the wall except in the southeast and southwest corners. The room where the locker is kept should have only one entrance. Apart from this, the main door in this room should be made of two doors.

Where should a locker be placed?

The locker should be placed against the south wall, facing the north wall. Do not place the locker in the north-east, south-east and north-west corner as it can lead to unnecessary expenditure. The locker should be placed at least 1 inch away from the wall and a foot away from the north-west and south-west corners.

How far away should a locker be from a wall?

The locker should be placed at least 1 inch away from the wall and a foot away from the north-west and south-west corners. Place your locker or almirah in a room that has only one door. The door should be in the north or the east direction. The door should not be in the south-east, south-west, north-west and south directions.

What happens if a locker is not in the right direction?

If the locker is not in the right direction, there are chances that the outflow of money could be greater than the inflow. You get the Vastu of the locker right; the inflow of money will increase, and the outflow will decrease. So let me help you understand in which direction to keep locker at home?

.

How to decorate a locker room?

Place a small and calming fountain in the locker room to bring in more positive energy into the area and increase the inflow of money too. In case you have a locker room, it should not have more than one door and the door should always have two shutters. The windows along the doors must also be constructed in the east or north direction preferably.
