# Check the authenticity of GCL photovoltaic panels

## Overview

---

How many GCL solar panels are there in Australia?

Currently, 39 GCL solar panels are approved by the Clean Energy Council (listed under the name of GCL System Integration Technology Co Ltd) for the Small-scale Renewable Energy Scheme - Australia's home solar rebate program. The GCL-M8/60H has 120 half cut monocrystalline solar cells and is one of GCL's best performing solar panels.

What is a GCL solar warranty?

The product warranty is designed to cover manufacturing faults in the panel that leads to damage or malfunction and is typically 10 years for most solar panel manufacturers. All GCL Solar panels offer a 10 year standard product warranty which is effectively the minimum expectation of the solar panel market.

Are GCL solar panels good quality?

GCL solar panels show some promise of being good quality (particularly the Saturn and Gemini series) through their ranking as a top performer by PV Evolution Labs independent testing. Unfortunately at this stage their offering in Australia (if it is currently available) lacks good customer support.

When did GCL begin selling solar PV plants?

GCL started selling solar PV plants in 2018. By the end of June, they had sold over 6 GW of solar PV farms, significantly lowering the liabilities and debts of the entire GCL group, including GCL System Integration. This has given GCL a much better financial position for future development.

What are the advantages of GCL-Gemini Solar panels?

One of the advantages of the GCL-Gemini solar panels is their advanced designs reaching a high system voltage of 1500V meaning more solar panels can be connected in each string, thereby reducing the cost of Balance of

System (BOS).

How do I find a good manufacturer for solar panels?

When reviewing manufacturers for solar products, first determine if the manufacturer is producing solar panels according to industry standards. This can easily be found out by requesting the common pv product certifications. After receiving the certifications, verify the authenticity of the pv certificate on-line at for instance TUV Rheinland.

## Check the authenticity of GCL photovoltaic panels
