Cocos Keeling Islands solar battery prices at makro

Overview

Small scale solar for the local community. We installed small scale solar power systems across the islands to start the transition to a clean, sustainable future for local communities.

Small scale solar for the local community. We installed small scale solar power systems across the islands to start the transition to a clean, sustainable future for local communities.

The price of a 6.6kW home solar power system in Home Island Cocos (Keeling) Islands (WA) is generally between \$3,000 and \$5,000 and 13 homes in Home Island Cocos (Keeling) Islands have already had solar installed.

Our services includes solar and battery projects, commercial and industrial electrical installations and maintenance, emergency backup power systems, civil works, trenching, and excavation, service location and survey, and assistance with other infrastructure projects including fibre optic and communications for government agencies.

We would expect a 6kW solar system in West Island Cocos (Keeling) Islands to produce 26.40kWhs of solar energy over the course of a year. How much this is actually worth depends on how much you pay for power and how much solar power you send to the grid.

Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park. We installed solar and battery storage systems at two sites on Christmas Island for Parks Australia to provide clean power to their main headquarters and research field station.

Islas Cocos

El británico William Keeling descubrió el archipiélago en 1609, el cual fue nombrado Islas Keeling (Keeling Islands) en su honor. Sin embargo, las islas permanecieron desiertas durante cerca de 200 años. En el siglo XIX, John

Clunies-Ross fundó la empresa Clunies-Ross que se dedicó a la explotación de los cocos del lugar. Por la abundancia de cocoteros (Cocos nucifera), las islas ...
