

European Solar and Energy Storage Solutions

Cook Islands alexander battery technologies

Cook Islands alexander battery technologies

Robotics & AGV Battery Pack Manufacturers

At Alexander Battery Technologies, we understand the intricate challenges faced by companies pioneering in the field of robotics. From achieving the desired power-to-weight ratio and form factor to ensuring reliable performance with the unique operational and charging requirements of each application, there are many complexities we will help you to address.

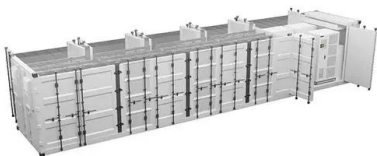

Cook Islands latest Pacific territory to use batteries and solar to

The Cook Islands in the Pacific will host a 5.6MWh lithium-ion battery energy storage system for the integration of renewables, in a project funded by the Asian Development Bank, European Union and Global Environmental Fund.

Battery Pack Design & Assembly

At Alexander Battery Technologies, we bring over 40 years of expertise in custom battery pack design and assembly, serving a wide range of industries from medical, robotics and automotive to consumer electronics and many other industrial applications. We specialise in developing bespoke solutions that meet your business's exact requirements

Developing customised battery packs and charging ...

Alexander Battery Technologies designs and manufactures custom battery power solutions for a variety of medical applications. Based in County Durham, UK, the company's products and services include Li-ion and NiMh battery packs and ...

Custom NiMH Battery Pack Manufacturing

The difference at Alexander Battery Technologies is that we consistently work to provide sustainable products, shorter (and greener) supply chains with your product on the shelf and ready to go at a moment's notice. Our customers in ...

Enhancing E-mobility

Alexander Technologies Europe Limited 2
Doxford Drive, South West Industrial Estate,
Peterlee, SR8 2RL United Kingdom. Company No:
01816700. DACH Office: Alexander Battery
Technologies GmbH Hanauer Landstraße 287,
60314 Frankfurt, Deutschland. Handelsregister:
Amtsgerichts Frankfurt am Main , HRB 132112.

Battery Pack Design & Assembly

At Alexander Battery Technologies, we bring over 40 years of expertise in custom battery pack design and assembly, serving a wide range of industries from medical, robotics and automotive to consumer electronics and many other ...

Global battery manufacturer invests for further growth

Global battery manufacturer Alexander Battery Technologies (ABT) is to recruit and heavily invest in its UK and overseas sites as it embarks on an ambitious growth strategy to meet rising worldwide demand. The Peterlee based company, which designs and manufactures customised rechargeable battery packs for a range of industries, has enjoyed

Alexander Battery Technologies

Alexander Battery Technologies specialises in providing battery packs with unique power, size, safety circuits, enclosures, and custom connectors. In addition, we offer solutions with smBus smart BMS circuits, IP rating requirements, or intrinsic safety to meet the requirements of high-tech devices used in the defence sector.

Alexander Battery Technologies

Alexander Battery Technologies, the specialist in customisable lithium-ion and NiMH battery packs and chargers, has achieved yet another highly

successful year, backed by substantial investment in both people and capacities as demand for environmentally friendly solutions across all sectors increases.

Alexander Battery Technologies at Electronica 2024

Alexander Battery Technologies (ABT), a global provider of custom battery packs, is set to exhibit at Electronica 2024, the world's largest trade fair for electronics. Taking place at Munich's Messe München from November 12-15, 2024, ABT is at stand A4.537 to showcase its latest innovations and developments in battery pack solutions.

Sustainable Alternatives to Deep-Sea Mining for Battery Production

Solid-state batteries, considered the 'holy grail' of battery technology, offer a promising alternative by being lightweight, having faster charging times, and not relying on critical deep-sea minerals.

Alexander Battery Technologies

Alexander Battery Technologies (Alexander) announces its new 'Rapid Response' programme for custom design, prototyping and

manufacturing for new lithium-ion battery packs. Alexander's rapid response programme dramatically reduces the original equipment manufacturer's (OEM) product time ...

Developing customised battery packs and charging solutions for ...

Alexander Battery Technologies designs and manufactures custom battery power solutions for a variety of medical applications. Based in County Durham, UK, the company's products and services include Li-ion and NiMh battery packs and chargers, battery management system components, integrated power and charger solutions, and custom printed

Rolls-Royce to install battery system for microgrid on Cook Islands

October 1, 2020: Rolls-Royce, the UK multinational engineering company, is to supply the batteries for a microgrid on the remote Pacific island of Rarotonga, one of the Cook Islands roughly halfway between Los Angeles and Sydney, Rolls-Royce Power Systems announced on ...

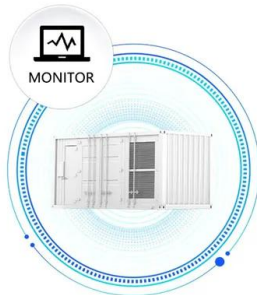

E-Mobility Battery Pack Manufacturers

The eMobility market is a hugely varied and

rapidly growing market with a wide range of applications that have extremely high performance demands on the custom battery pack itself. Demand spans across a spectrum of applications, ranging from e-Scooters and e-Bikes to electric motorbikes, electric cars, construction equipment, marine vessels, and industrial machinery.

SUPPORT REAL-TIME ONLINE
MONITORING OF SYSTEM STATUS

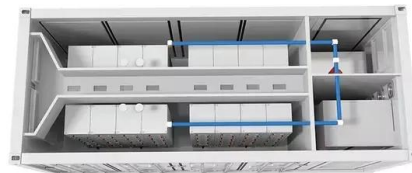

Custom Battery Pack Manufacturing

We design and manufacture custom built battery packs for OEMs to meet the exact specifications of their battery-powered products. Whether you manufacture e-bikes, Electric Vehicles, home appliances, robots, or much more, we can create custom battery solutions that give you the best possible performance and durability.

Alexander Battery Technologies 2022 , Alexander Technologies

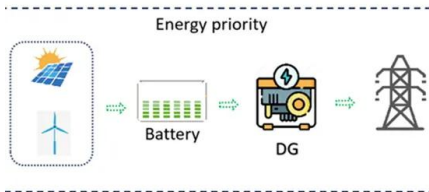

Throughout the year Alexander Battery Technologies has been featured in online articles in a variety of publications. Factory Visits. Earlier this year factory visits made a return, following the easing of covid-19 restrictions, allowing us to show off our state-of-the-art facility at our company headquarters in Peterlee. We are also delighted

Industries We Serve

Alexander Battery Technologies is ready to support your next battery-powered device. Because of these factors, we can move from initial request from the customer to providing

them with concepts in under 3 months. Coupled with our Sample Submission Form that we use to confirm compliance with specification on part submission, and to highlight

Custom Lithium-Ion Battery Packs

Your Custom Lithium-Ion Battery Pack Manufacturer. Designing, developing and manufacturing customised lithium-ion battery packs using a full range of battery chemistries, Alexander Battery Technologies delivers incredibly reliable custom battery packs for businesses across the industries we serve.. We use our experience from the last 40 years to listen to our customers' ...

- LIQUID/AIR COOLING
- INTELLIGENT INTEGRATION
- PROTECTION IP54/IP55
- BATTERY /6000 CYCLES

Our History

40 years of history in the custom battery pack manufacturing industry is a significant milestone that all of us at Alexander Battery Technologies are proud to be a part of. Over this time, we have delivered more than 15 million battery products to some of the world's largest and most demanding OEM businesses in Europe and North America

Custom 21700 Battery Pack Manufacturing

With over 40 years of battery design experience, Alexander Battery Technologies offers a complete solution and rapid project management

on every project for the design and manufacture of battery pack solutions. Your Proposal Our proposals are created to deliver detailed, carefully considered feedback to you and your team, allowing you to

Custom 18650 Battery Packs

Alexander Battery Technologies provides each customer with a cell or cell options for their new project, potentially based on a huge number of factors. The common choices provided will be whether a 21700 battery pack or an 18650 battery pack is the preferred option. The choice made at this stage will directly drive the performance of your
