Scientific forecast use and factors of influence in water ...

Here, Rayner et al. argue that, at times, institutional structure and norms can dissuade water managers from using newer types of forecasts (Rayner et al., 2005) whereas Babcock et al. found that in Costa Rica strong institutional mandates to use climate forecasts was associated with their use (Babcock et al., 2016).

Babcock & Wilcox News

Babcock & Wilcox Thermal segment revenues were \$120.2 million in the second quarter of 2024, which is in line with company expectations, despite being a decrease compared to \$158.0 million in the second quarter

of 2023. The revenue decrease is primarily attributable to the completion of a large construction project in the second quarter of 2023.
