Overview

Who is ads-TEC energy?

ADS-TEC Energy has been developing and producing battery storage-based platform solutions - a combination of highly integrated battery storage and in-house software solutions - for over 10 years. This started way before ADS-TEC Energy was founded out of the ADS-TEC Group.

What's new at ads-TEC energy?

"ADS-TEC Energy is now well positioned to expand the development and deployment of our battery-buffered technology platforms throughout European and U.S. markets," said Thomas Speidel, Founder and CEO of ADS-TEC Energy.

Is ads-TEC energy a good EV charging company?

Electric Vehicle [EV] charging solutions developer ADS-TEC Energy (NASDAQ: ADSE) has seen impressive performance in the past year, with an ~70% price increase, compared to a 15.1% decline in the S&P Kensho Electric Vehicles Index over this time. There's indeed much to like about the company, starting with its product.

What can ads-TEC energy do for You?

ADS-TEC Energy's electric vehicle charging platforms can offer operators in the future also the opportunity to generate multiple revenue streams, including advertising, grid services, swarm operations and intelligent distributed energy management.

How did ads-TEC perform in H1 2024?

After seeing a better than expected 306% revenue increase in 2023, the company grew at a relatively slower but still robust rate of 107% year-on-year (YoY) in H1 2024. It's also encouraging that ADS-TEC has started generating a gross profit in H1 2024, turning around the losses seen up to 2023.

How many charging points will ads-TEC have in 2035?

Globally, according to the International Energy Agency, expects the number of charging points to increase by 6x by 2035. Assuming that ADS-TEC's figures also grow by the same rate, from the 2,500 charging points delivered so far, the number can rise to 15,000 by then.
