Physics-informed AI models to optimize solar assets - SmartHelio

Deep-data analytics and decision-making tools for smart solar assets management, financials & business insights for maximized outputs. Algorithms successfully tested and validated on real solar PV data sets.

AI-Powered Solar Management Software - SmartHelio's Autopilot

Autopilot software seamlessly plugs-in into your SCADA / CMS platform, extracts information such as equipment specifications, maintenance reports, Single Line Diagram, thermographic images etc., to create a digital twin within minutes and then provides results from day 1

Protecting PV plants against climate change with Autopilot

Using Smart Helio's proprietary algorithms based on Physics-Informed AI that considers factors like high temperature, irradiances, and OEM specifications, etc, it was able to predict the number of string disconnections in the upcoming weeks. This helped the client to take action and replace the inverters before they blew.

Storage Units at 3142 Colusa

Hwy, Yuba City, CA , CubeSmart

We offer a wide range of sizes to accommodate your storage needs, from 5'x5' (25 square feet) to 10'x30' (300 square feet)*. 10'x10' units can store items from a one-bedroom apartment or small office.

Self Storage FAQs , Storage Facts & Information

Read through our size guide to see the storage units we offer and determine which one is right for you. Choosing the right size unit will ensure that you only pay for the storage you need. We offer a wide range of sizes to accommodate ...

SmartHelio: Software to prevent downtime in a solar ...

SmartHelio provides a software that helps solar utilities automatically predict and prevent downtime disruptions. We help solar utilities to generate extra \$200k per plant income on \$10k spent using our software, by ...

SmartHelio

SmartHelio launches AI solar forecasting tool with 98.5% accuracy. Sep 15, 2024. Switzerland-based solar software developer SmartHelio is launching its AI-powered Suite, offering up to 98.5% accuracy in global horizontal irradiance (GHI) and wind resource forecasting, along with 95% accuracy in failure prediction.

SmartHelio raises USD 5 million to extend the lifespan of solar ...

SmartHelio's proprietary IoT sensor and intelligent software improve the performance and lifespan of solar panels. With the funds, SmartHelio plans to scale its product. The startup is a Venture Kick winner and Venture Leaders alum.

SmartHelio: Software to prevent downtime in a solar plant

SmartHelio provides a software that helps solar utilities automatically predict and prevent downtime disruptions. We help solar utilities to generate extra \$200k per plant income on \$10k spent using our software, by preventing 700 faults per year.

Smart.Helios: Entwicklungslabor für E-Health

Vor zweieinhalb Jahren hat der Helios Konzern mit dem Helios.Hub einen Digital Health Accelerator für Start-ups gelauncht. Seit August 2017 gibt es mit Smart.Helios nun ein eigenes Entwicklungslabor für E-Health-Produkte.

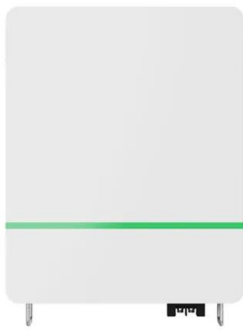

SmartHelio Team is composed of solar industry experts and veterans

What began as an EPFL spin-off has blossomed into a global force for sustainable change, with offices in Switzerland, India, and the US. Our journey is driven by a simple yet powerful belief: that technology can and must serve as a bridge to a cleaner, more sustainable future.

December 9, 2024. From Hours to Minutes: How AI is Revolutionizing Solar Plant Diagnostics.
December 9, 2024In ArticleChallenges and Innovation in Solar Plant Operations: An Industry Expert's PerspectiveThe solar industry faces significant challenges in maintaining optimal performance of photovoltaic (PV) installations.

Meet SmartHelio co-founder Govinda Upadhyay and find out

...

Managing people's emotions and expectations in a startup. You need to convince super-smart people to work with you for less/no money and sell them your vision. Then, when the team is growing up, you need to keep hiring smart people and make sure they are intrinsically motivated to work for the vision.
