

## European Solar and Energy Storage Solutions

# Current photovoltaic inverter market

## Overview

---

The global PV inverter market size was estimated at USD 13.09 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 18.3% from 2024 to 2030.

The global PV inverter market size was estimated at USD 13.09 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 18.3% from 2024 to 2030.

PV Inverter Market size was valued at USD 13.32 billion in 2023 and is estimated to expand at a CAGR of 7.7% between 2024 and 2032.

The Solar PV Inverters Market grew from USD 9.11 billion in 2023 to USD 9.94 billion in 2024. It is expected to continue growing at a CAGR of 10.36%, reaching USD 18.17 billion by 2030.

The global PV inverter market size is expected to reach a value of USD 16,194 million by 2030, growing at a CAGR of 5.85% and String PV inverter accounted for the largest market share. What is the global PV inverter market size?

The global PV inverter market size was estimated at USD 13.09 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 18.3% from 2024 to 2030.

Why is the PV inverter market growing?

Increased global PV demand: The increased global demand for photovoltaic (PV) systems presents a massive opportunity for the PV inverter market to grow substantially in the coming years.

Which region has the largest solar PV inverter market share?

Asia Pacific is expected to account for the largest solar PV inverter market share, driven by the growing demand for renewable energy and the need for energy independence. The region is home to many developing countries, including China and India, where there is considerable growth in solar

photovoltaic (PV) installations.

How is the solar PV inverter market segmented?

By inverter type, the market is segmented into central inverters, string inverters, and micro-inverters. By application, the market is segmented into residential, commercial and industrial, and utility-scale. The report also covers the market size and forecasts for solar PV inverters across major regions.

What are the market trends for solar inverters?

The growing production of meticulous and renewable energy plants in various developing and developed countries to reduce the carbon footprint is increasing market trends. Rising government schemes, such as FiTs (Feed-in Tariffs) to increase the installation of solar inverters, are enhancing the market trend.

What is a photovoltaic inverter?

A photovoltaic inverter, referred to as a solar inverter, is an essential device in a solar energy system. It converts DC (direct current) power generated by solar panels into AC (alternating current) power, which is compatible with standard electrical systems used across homes, businesses, and industries.

## Current photovoltaic inverter market

---

### Solar PV Inverter Market Share , Size & Analysis

The solar PV inverter market reached USD 8.45 billion in 2023 & expected to grow at 5% CAGR between 2024 and 2032, to reach USD 13.13 billion by 2032. Its basic function includes the ...

### PV Inverter Market Trends, Size, Share & Analysis 2024

The PV inverter market size is valued at US\$ 15.28 billion by 2024, from US\$ 41.87 billion in 2031, at a CAGR of 15.5% during the forecast period. PV inverters are critical components in ...

### Photovoltaic Inverter Market: Global Industry Analysis and ...

PV Inverters Market is expected to grow at a CAGR of 5% during the forecast period and market is expected to reach USD 15.33 Bn. by 2030. taking direct current energy from all the ...

### Global Solar PV Inverters Market Dynamics

Solar PV Inverters Market size was valued at \$

## Analysis of the current situation of the photovoltaic inverter market

The inverter is to convert the direct current energy into alternating current. Generally speaking, an inverter is a device that converts DC into AC. Power management ...

## PV Inverter Market Size, Sales, Share & Forecast by 2033

PV Inverter Market, 2017 to 2022 Historical Sales, Compared to 2023 to 2033 Future Outlook. According to Future Market Insights, the global PV inverter market is predicted at a healthy ...

## PV Inverter Market Size, Share And Growth Report, 2030

PV Inverter Market Outlook. The PV inverter market is predicted to capture a valuation of USD 1.5 billion in 2023, and is rising to USD 2.8 billion by 2033. The market is estimated at a CAGR of ...

## Photovoltaic Inverters Market Size, Industry Share , Forecast 2032

The photovoltaic inverters market is categorized by low voltage (less than 1000 V), medium voltage (1000 V to 1500 V), and high voltage (more than 1500 V). Rising demand from the ...

## Solar PV Inverter Market Share , Size & Analysis

The solar PV inverter market reached USD 8.45 billion in 2023 & expected to grow at 5% CAGR between 2024 and 2032, to reach USD 13.13 billion by 2032. Its basic function includes the conversion of direct current (DC) from solar ...
