

## European Solar and Energy Storage Solutions

# Cyprus starttime solar system

## Overview

---

Where can I find solar energy in Cyprus?

The solar energy and installation companies can be found in all of the major cities throughout the island, including Nicosia (the capital), Limassol, Larnaca, Famagusta and Paphos. In 2011, the Cypriot target of solar power including both photovoltaics and concentrated solar power was a combined 7% of electricity by 2020.

Will Cyprus become a hub for solar energy innovation?

Georghiou predicts the initiative, coupled with Cypriot industry collaboration, will lead to a substantially higher solar energy deployment in Cyprus over the coming years, reduce environmental degradation and make the country a hub for solar innovation, technology transfer, industry start-ups and job creation.

How can Cyprus become more energy self-sufficient?

In an attempt to make Cyprus more energy self-sufficient, the EU-funded TwinPV initiative focuses on bolstering the country's technological know-how through the sharing of expertise on the entire solar energy cycle - from cells and modules to storage and smart electricity grids.
