Do photovoltaic panels need repair

Overview

Solar panels have no moving parts, so nothing needs to be serviced, oiled, or cleaned.

Solar panels have no moving parts, so nothing needs to be serviced, oiled, or cleaned.

However, like any technology, solar panels require regular servicing and occasional repairs to maintain optimal performance.

Solar panel systems are incredibly durable and require little to no maintenance over their 25+ year lifetime.

To limit having to pay for any repairs, you need to get your solar panels serviced at least once every 5-10 years.

Solar panel repair and maintenance is required from time to time, but residential system owners do not have to worry about much ongoing upkeep. Do solar panels need repairs?

While solar panels are designed to withstand various weather conditions, they can encounter issues over time. Here are some common problems that may require repairs: Panel damage: Extreme weather events, such as hailstorms or falling branches, can cause physical damage to solar panels.

How can I tell if my solar panel needs repair?

If you observe a significant drop in the amount of electricity generated by your solar panels compared to previous periods, it could be a sign that your solar panel requires repair. Inspect your solar panels for any visible physical damage.

Do solar panels need maintenance?

Although solar panel systems don't usually require active or routine maintenance, some homeowners purchase a solar operations and

maintenance (O&M) package for added peace of mind. O&M service packages are essentially insurance plans for your solar panel system that include things like cleaning, electrical system checks, and pest control measures.

Who is responsible for solar panel repair costs?

If you own a solar panel system, you are typically responsible for the maintenance and upkeep, including any necessary repairs. However, be sure to check the product warranty first to see if it's still covered.

What should I do if my solar panels are damaged?

Regularly inspect your solar panels for damage. Keep tree and bush branches away from your solar panels. Doing so may mean pruning trees and bushes or removing them if they become too large. Regularly clean your panels or have a professional service perform the task. Have regular professional whole-system inspections.

Do solar panels need to be cleaned?

Still, things like snow, smog, dust, or dirt can cause a dip in your production, especially during times of low rain. In that case, cleaning your solar panels would be beneficial. Your best and safest option is to hire a professional cleaning service, which your installer should be able to recommend.
