Overview

What services does a solar panel cleaning service offer?

We offer, solar farm cleaning, vegetation control and drone imaging services. A one stop approach for all of your needs. Our commercial and industrial solar panel cleaning services cover all solar installation types, including large rooftops, ground mounts, carports and PV glass. Clean solar modules produce more and last longer.

Does Sun service specialists clean solar panels?

Sun Service Specialists DOES NOT use cleaning materials that are hazardous to panel health. Because solar panels have no moving parts, there is very little maintenance — but solar panel cleaning should be a priority for system owners, as soiling and dirt on your array can definitely lead to lost energy production.

Does Shine clean solar panels?

Shine's Professional Solar Panel Cleaning Team will evaluate your panels and create the best plan to preserve the longevity of your solar panels. Interested in A Better SHINE on Your Solar Panels?

.

Does professional solar panel cleaning increase energy production?

Researchers at Google's solar panel farm found that energy production doubled after professional cleaning. And after a second cleaning, they found that the energy production had gone up by 36%. At Shine, we are experts in professional solar panel cleaning and promise the best, safest, and most effective way to clean panels.

What services does solar maid offer?

Solar Maid, North America's longest tenured national panel cleaning company

(Est. 2003), also provides many additional janitorial O&M services such as: snow removal, site clean up, security, just to name a few Clean Panels - That's what we do! With Solar Maid, you can count on spotless solar panels.

Who is a non-electric solar O&M Company?

We are a Non-Electrical Photovoltaic Solar O&M Company. This includes solar panel cleaning, vegetation management, thermal imaging, soiling mitigation and site maintenance. You invested in clean energy, don't let your production & ROI slip away due to improper maintenance. System life is a key component when evaluating a solar project.
