## Solar Panel Chamber

Solar panels could power vehicles, cell phones, laptops, lights, and aircrafts in the near future. In order to effectively power these devices, the solar panel must be able to withstand their likely environmental surroundings. To test the panels against their environment, many considerations need to be made before test equipment is selected.

## ENERGY PROFILE Bonaire, Sint Eustatius and Saba

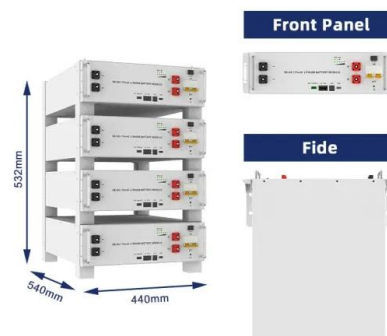

emissions from renewable power is calculated as renewable generation divided by fossil fuel generation multiplied by reported emissions from the power sector. This assumes that, if renewable power did not exist, fossil fuels would be used in its place to generate the same

amount of power and using the same mix of fossil fuels. In countries and
