Overview

How can Erda energy help your business?

Erda Energy solutions will help your business drastically reduce energy use, utility costs and carbon impact. Our systems harness multiple sources of heating and cooling energy, and integrate them with the thermal stability of the earth, and can cut heating energy use by over 70% as soon as they're turned on.

What is ERDA Energy?

ERDA Energy is a company experienced in healthcare energy systems, both small and large. You can depend on the reliability of our solutions and energy savings. We are ERDA Energy. Learn more about how we're looking to change the way we use energy.

How does Erda energy change the way we use energy?

Erda Energy has the technologies to completely change the way we use energy. Project by project, we are helping to replace old, wasteful systems with efficient ones, and to replace old ideas about energy supply and management with modern, carbon-saving solutions.

What are the benefits of Erda technology?

The benefits to your business are just the beginning; Erda technology is the next step in the evolution of the built environment – smart, clean, connected. By using this form you agree with the storage and handling of your data by this website. View the terms of our Privacy Policy.

Is Slovakia facing a gas crisis?

Slovakia's Prime Minister Robert Fico warned of a gas crisis on Friday as Ukraine continued to reject extending the transit of natural gas through its territory after a contract expires at the end of the year.
