

European Solar and Energy Storage Solutions

Eunice group Guadeloupe

Overview

Who is Eunice group?

The Eunice Group Renewable Energy, Hybrid Power Generation, Storage and Self-Management Station on the island of Tilos has won four international awards and international recognition.

How much power does Eunice group have?

Total Power: 582 MW SAI Project (South Aegean Interconnector) Crave H2 Project, GAP Project (Greece-Africa Power Interconnector ENTSOG H2EL) With 22 years of experience in the renewable energy sector, Eunice Group holds a significant position on the energy map, both in Greece and globally.

How does Eunice contribute to the green energy industry?

As pioneers of the production of exclusively clean, green energy, Eunice contributes dynamically in shaping the industry, by implementing private investments and developing strong national and international alliances and partnerships.

What is Eunice S4s?

The Eunice Group is constantly implementing and evolving the S4S, an intelligent energy self-management system that ensures energy autonomy at every scale. If you want to discover the ecosystem of Eunice, to get to know our complete solutions, products and services, contact us.

What is Eunice's vision for a clean and Green World?

With a strategic focus towards new technological advancements, Eunice envision a clean, green world of a collaborative co-existence where energy independence and energy autonomy is obtained by every citizen, and energy management and control is possible and achievable, anytime and from anywhere.

Eunice group Guadeloupe

Home Eunice Group

Eunice is the sole Energy Group in Greece that generates and supplies electricity exclusively from Renewable Energy Sources. As pioneers of the production of exclusively clean, green energy, Eunice contributes dynamically in shaping the industry, by implementing private investments and developing strong national and international alliances and

Eunice Drive

Eunice Energy Group is the first Greek company to become a member of the pan-European Hubject EV network. The Hubject network provides cross-border access services (e-roaming) between leading electro-mobility networks. Hence, all electric vehicle drivers from Greece that wish to travel through Europe, and vice versa all European EV drivers that
