Thousands of Kenyans to get clean energy from US\$147 mn solar ...

The new Radiant and Eldosol projects are among the first to generate utility-scale solar power in East Africa. The two schemes will diversify Kenya's electricity supply away from both rain-dependent hydro and fossil fuels, contribute to improving grid stability in Western Kenya and cater for expected increased in energy use in the coming years.

Kenya: European bank backs solar growth and development

The European Investment Bank (EIB) is finalising a Sh7.5 billion (\$78 million) loan for construction of two solar power plants in Kenya. The credit is evident that there is growing interest by global organisations in financing renewable projects in the east African country.

Edition United Kingdom

For the second time, the European Solar Games will take part this autumn in the UK, at the Solar & Storage Live 2025 exhibition in Birmingham. During 3 exhibition days, UK installation teams will compete for the coveted title 'Champion European Solar Games UK' and of course the golden roof hook. The games are about quality, mounting

European Solar activeert zonne-energie projecten in Nederland!

We activate Solar energy. De wereld van European Solar is er één van duurzame energie, maar ook van mensen. Onafscheidelijk zijn ze voor ons met elkaar verbonden. Zonder goede mensen geen renderende oplossingen. Zonder

kwalitatief hoogwaardige oplossingen geen versnelde groei in duurzame energie. Wij zorgen ervoor dat verbinding bindt.

Grupotec builds 80 MW in Kenya financed by the European ...

The European Investment Bank (EIB) and the Dutch development bank FMO have agreed to finance the construction and operation of two solar plants in Kenya with a combined capacity of 80MW. The two banks will contribute \$ 53 million each to the two 40MW plants, which are located 300 km northwest of Nairobi.

To Strive forward No Energy Waste

- ✓ All in one
- ✓ 100~215kWh High-capacity
- ✓ Intelligent Integration

100% Renewable Europe study

Aristotelis Chantavas, President of SolarPower Europe, said: "A 100% renewable energy system enables the EU to become climate neutral before 2050, complying with the ambitious 1.5°C Paris Agreement target, and without resorting to carbon sinks. This Leadership scenario will also trigger the sharpest decline in GHG emissions, down to zero in 2040.

Edition Netherlands

During 3 exhibition days, the 12 finalists will compete for the coveted title 'Champion European Solar Games - Netherlands' and, of course, the golden roof hook. You don't want to miss this! The competitions are all about quality,

assembly, cabling and delivery. Time is the last and least important criterion.
