

European Solar and Energy Storage Solutions

Falck renewables wind limited Guinea-Bissau

Overview

Last spring, we launched an international supporting program to alleviate the impact of the Covid-19 pandemic with targeted actions in the local communities and territories where we operate. The program – for a total value of € 740 thousand – helped local communities around our wind & solar plants in UK, Italy.

We issued a €200 million senior unsecured equity-linked Green Bond due September 23, 2025. The bond does not bear interest and has been issued at an issue price of 101.25% of.

In March 2020, we completed the strategic agreement with Eni for the joint development of renewable energy projects in the US which was.

Exploring the Potential of Guinea-Bissau's Wind Energy Resources

With a coastline stretching over 350 kilometers and a predominantly flat terrain, the country is ideally situated to harness the power of the wind to generate clean, renewable energy. Despite this potential, Guinea-Bissau's energy sector remains largely underdeveloped, with the majority of the population lacking access to reliable electricity.
