When are the Northern Lights in the Faroe Islands?

With some luck you can experience the Northern Lights in the Faroe Islands during the winter months from November to February. Seeing the velvet-like lights dance above you on a clear cold night is an absolutely magical experience that will stay with you forever.

Where to go in the Faroe Islands?

If you are in Torshavn, take a ride up Oyggjarvegur and drive up to Sornfelli. If you are in the northern islands head up to the northern part of the country preferably to the coastal village Viðareiði. What are the Faroe Islands like during winter?

A slither of the Northern Lights near the island Mykines.

How are the Faroes connected?

The Faroes have a highly developed road network connecting almost all settlements by tunnels through the mountains and between the islands, bridges and causeways that link together the four largest islands and three islands to the northeast. Suðuroy is the only major island not connected by a fixed link.

Where are the Faroe Islands located?

Faroe Islands are located on 62° N on the south edge of the Arctic Circle. If you are in the Faroe Islands during the winter and the skies are clear, you are likely to catch a faint green aurora if you point your camera in a northern direction when it is dark. Northern Lights are made by electrically charged particles.

Is there snow in the Faroe Islands?

The aurora borealis seen from Oyggjarvegur. Photo by Djake Mortensen. On the mainland you will have no issues moving around. Deep snow rarely settles in the Faroe Islands and when it does it will be effectively cleared off the roads to allow the islanders to commute to and from work.

What is the Nordic House in the Faroe Islands?

The Nordic House in the Faroe Islands (Faroese: Norðurlandahúsið) is the most important cultural institution in the Faroes. Its aim is to support and promote Scandinavian and Faroese culture, locally and in the Nordic region.

The Best & Worst Times to Visit the Faroe Islands in 2024

The worst time to visit the Faroe Islands is the winter. The weather and daylight are the worst for exploring the archipelago. Winter in the Faroe Islands is a cold, windy time of the year. Keep in mind that the Faroe Islands are very far north, so it makes sense that the winters here are fairly intense.

The Faroe Islands

The 18 jagged volcanic islands which make up the Faroe Islands resemble a handful of rocks scattered haphazardly in the deep-sea ocean. Home to mountains of myth, hobbit-like turf-roofed houses, and grazing shaggy sheep, these islands make up the perfect playground for the senses. They inexplicably unearth a soothing sound of stillness and a
