25 Best Things To Do in the Faroe Islands

Driving the quality road system in the Faroe Islands is an adventure in its own right. A truly remarkable experience. Photo by Jannik Hubo known as @jannikhubo on Instagram. Simply driving from island to island and from one village to another is a super activity in its own right. Most villages are connected by tunnels, sub-sea tunnels

100 % renewable energy by 2030 - Faroe Islands on track to ...

The Faroe Islands are determined to achieve a remarkable goal: attaining 100% renewable energy by 2030. Efelagið SEV, the electrical company in the islands, affirms that they are on track to accomplish this ambitious target.

Green Energy Faroe Islands - 100by2030

The ocean offers ideal conditions for innovative tidal energy and other technologies. Hydropower was one of the first sources of energy to be explored in the Faroe Islands already many years ago and now even a Field Solar PV plant has been inaugurated and included in the mix of sources.

Energy

There is no shortage of renewable power in the Faroe Islands, due to the ocean currents and tides of the Northeast Atlantic and an abundance of strong wind. With an existing network of hydropower from mountain streams and lakes, converting other sources of natural power into affordable green energy is a top priority.

The Least-Cost Path to a 100% Renewable

In 2030 the electricity sector in the Faroe Islands should be 100% renewable, according to the local electrical power company SEV. It is therefore necessary to study, how this goal can be reached with the minimum costs. This can be determined through optimisation of the future electricity sector. This paper presents such an optimisation.
