BASF partners with 'metal-free' flow battery startup JenaBatteries

BASF announced the partnership towards the end of last week. JenaBatteries' website claims the startup has made available a scalable redox flow battery for energy storage which goes from 100kW to 2MW power and 400kWh to 10MWh capacity ratings based on a saline solution, in which different organic storage materials form the anode and cathode.

Turks and Caicos

As part of our ongoing commitment to providing the best possible network experience for customers, Flow will retire the 2G network, to reutilize the spectrum to improve 3G and 4G connectivity. This change will deliver faster data speeds and additional coverage, while also paving the way for future innovations in wireless technology.

Flow , Turks and Caicos , Prepaid

In addition to the auto-renewal reminder messages at 24hrs and 48hrs before renewal time, customers will get a message at the start of the grace period to encourage top up to maintain benefit. If the Customers still does not have sufficient balance after the 48hr grace period, then auto-renewal should fail, and the relevant failure message sent

Luxpower inverter not using pylontech batteries

The system was set up by the installer with one US5000 pylontech battery. I have successfully added 2 more US5000 batteries previously (simply turned system off, added the batteries, balanced them before turning them on). The inverter had no problem managing the added capacity. The problem occurs in adding the new US3000, the 4th battery.
