Overview

What is the \$7 billion solar for all program?

Oops, something went wrong. Check your browser's developer console for more details. Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

What is the 60 solar for all program?

This is a win for the environment, a win for consumers, and a win for the economy.” EPA estimates that the 60 Solar for All recipients will enable over 900,000 households in low-income and disadvantaged communities to deploy and benefit from distributed solar energy.

How will EPA's 60 solar for all program help low-income households?

EPA estimates that the 60 Solar for All recipients will enable over 900,000 households in low-income and disadvantaged communities to deploy and benefit from distributed solar energy. This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households.

Who is eligible for community solar?

Community solar applications are often available for everyone, although space on the grid is set aside for low- and middle-income households. If you live somewhere where the local Solar for All program offers free solar panel system installation, your eligibility hinges upon your household income.

How much will solar energy save a community?

This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households. The program will reduce 30 million metric tons of carbon dioxide equivalent emissions cumulatively, from over

four gigawatts of solar energy capacity unlocked for low-income communities over five years.

Is solar for all a national program?

Some states and communities have already had Solar for All programs, but the \$7 billion in grants authorized by the Inflation Reduction Act and awarded this week by the US Environmental Protection Agency will allow for a national adoption of the model. What is Solar for All?
