

European Solar and Energy Storage Solutions

Freshtec energy Belarus

Overview

Who is freshtec energy?

Freshtec Energy is a solar company specialising in the wholesale and retail sales of solar systems : inverters, panels, batteries and all the solar accessories to installers and to the general public. We are an Online store with a physical warehouse, where customers can come to pay and collect their orders.

Is freshtec a good company?

Best solar supply. We have been working with freshtec for a long time. It has been a very good experience with them. Good business indeed and well taking care of their clients. Do not buy solar from Freshtec Energy. No aftersales assistance. Do not use the "technicians" they claim you can contact for any form of installation.

Should I buy solar from freshtec energy?

Do not buy solar from Freshtec Energy. No aftersales assistance. Do not use the "technicians" they claim you can contact for any form of installation. They are not reliable nor have the professional knowledge they pretend to have. You will be left in the dark 100%. They buy from Segen and there is no assistance either.

Is freshtec energy a scam?

Freshtec Energy Not a scam, just good business sence! I am in Cape Town and had some worries that the good prices and service was a scam. Everything, but! Prices were at least 15% cheaper and one of the pieces was 30% cheaper than anywhere. I spoke to a gentleman called Patric and he was friendly, helpful and very prompt with his service.
