GCL photovoltaic panel exports

Overview

How efficient are GCL solar modules?

It said in November that its 1 m x 2 m perovskite single-junction modules had reached a power conversion efficiency of 18.04%. GCL Group has signed an investment agreement with the government of Suzhou, Jiangsu province, to build a 2 GW perovskite solar module factory.

When will GCL integration start manufacturing solar panels?

GCL Integration expects to begin manufacturing activities at the new facility in October. With the new factory, its total solar panel manufacturing capacity will reach 30 GW. The company also announced plans to raise CNY 6 billion through a private placement of shares.

How much will GCL integration invest in a new factory?

The Chinese PV panel maker says it is investing CNY 2 billion (\$290.4 million) in the new facility, which will host 14 production lines. GCL Integration expects to begin manufacturing activities at the new facility in October. With the new factory, its total solar panel manufacturing capacity will reach 30 GW.

Who is GCL Technology Holdings Limited?

GCL Technology Holdings Limited is a global pioneer in the research, development and manufacturing of high-efficiency photovoltaic materials.

What is GCL System Integration Technology?

GCL System Integration Technology 协鑫集成 is an engineering, procurement and construction (EPC) company. Last November, it acquired the necessary qualifications for wind power design and engineering, completing its transformation from a photovoltaic EPC to a wind and solar energy EPC.

How much profit does GCL Energy Technology make?

In 2021, GCL Energy Technology reported net profits of a billion yuan (\$148.76 million) after its public listing in 2019. They are also constructing a battery swap network in China, which will consist of 800 swap stations by the end of this year, servicing more than 25,000 new energy vehicles. The plan is to build 6,000 swap stations by 2025.
