Gejiu solar power wholesale quotation

Overview

How do I get a wholesale solar quote?

Installers, EPCs and solar brokers looking for wholesale deals can request quotes from multiple sellers by joining online exchanges or partnering with a solar equipment broker. For example, EnergyBin members who send out RFQs for their material lists receive an average of 5-10 quotes within one business day.

Should you buy wholesale solar equipment?

There are many benefits to buying wholesale solar equipment and streamlining your supply chain processes. Lower priced arrays help more people go solar. You probably got into this business because you believe in solar as an affordable renewable energy source and want to do your part to make it accessible to all.

Do solar wholesalers offer Value-Added Services?

Many solar wholesalers and distributors have evolved their business models to offer value-added services. Some provide storage space to contractors and will drop ship equipment to project worksites. Some offer lines of credit. And some buy back your excess and used equipment as long as the material has resale value.

What is solar wholesale selling?

Most importantly, wholesale selling helps to bring the cost of solar down, which accelerates the advancement of solar worldwide. This guide will be frequently updated with additional information about wholesale selling for solar suppliers, distributors and brokers.

How do Solar Contractors buy & sell solar equipment?

Rather, they tend to acquire goods from a variety of supplier relationships like manufacturers, other wholesalers, liquidators, auction houses, and even

developers, EPCs, and contractors with excess and second-hand material. They may work with solar equipment brokers to buy and sell goods as well.
