

European Solar and Energy Storage Solutions

GoodWe Energy Storage Container

Overview

What does GoodWe offer?

GoodWe offers Commercial and Industrial Energy Storage solutions for EPCs, developers, and owner-operators to utilize roof resources and generate revenue.

What is a goodwe em series energy storage inverter?

An all-round intelligent system for maximum energy flexibility. The GoodWe EM series bi-directional energy storage inverter can be used for on-grid PV systems, with the ability to control the flow of energy intelligently.

What is a goodwe ES series bi-directional energy storage inverter?

The GoodWe ES series bi-directional energy storage inverter can be used for both on-grid and off-grid PV systems, with the ability to control the flow of energy intelligently. During the day, the PV array generates electricity which can be provided either to the loads, fed into the grid or charge the battery, depending on the economics and set-up.

What is the goodwe EH series?

The GoodWe EH Series is a single-phase, grid-tied inverter that includes a “Battery Ready” option for users who might wish to add a full energy storage solution in the future. By simply purchasing an activation code, the EH can easily be upgraded to a complete energy storage solution.

What is a goodwe EH series inverter?

With UPS-level switching, the ET can provide savings when connected to the grid, or off-grid independence and security when the grid is down. The GoodWe EH Series is a single-phase, grid-tied inverter that includes a “Battery Ready” option for users who might wish to add a full energy storage solution in the future.

What is a goodwe BT series inverter?

The GoodWe BT series is an AC-coupled retrofit inverter, which is able to upgrade existing three-phase on-grid PV systems to storage systems. The AC-coupled solution can transform any three-phase on-grid PV system into an energy storage system with batteries, enhancing grid independence and self-consumption.
