# Government subsidies for solar power generation projects

## Overview

---

Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy. Collectively, these programs will deliver on the Greenhouse Gas Reduction Fund's .

Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy. Collectively, these programs will deliver on the Greenhouse Gas Reduction Fund's .

WASHINGTON (June 28, 2023) – Today, the U.S. Environmental Protection Agency (EPA) launched a \$7 billion grant competition through President Biden's Investing in America agenda to increase access to affordable, resilient, and clean solar energy for millions of low-income households. Residential distributed solar energy will lower energy .

The 60 selections under the \$7 billion Solar for All program will provide funds to states, territories, Tribal governments, municipalities, and nonprofits across the country to develop long-lasting solar programs that enable low-income and disadvantaged communities to deploy and benefit from distributed residential solar, lowering energy costs .

Following an open, competitive solicitation process, these funding opportunities encourage collaborative partnerships among industry, universities, national laboratories, federal, state, and local governments and non-government agencies and advocacy groups.

This guide assists local government officials and stakeholders in boosting solar deployment with approaches to reduce market barriers that have been field tested in cities and counties around the country. Who will receive a \$7 billion solar grant?

Washington – Today, April 22, as the Biden-Harris Administration celebrates

Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

What is the \$7 billion solar for all program?

Oops, something went wrong. Check your browser's developer console for more details. Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

How will EPA's 60 solar for all program help low-income households?

EPA estimates that the 60 Solar for All recipients will enable over 900,000 households in low-income and disadvantaged communities to deploy and benefit from distributed solar energy. This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households.

How much will solar energy save a community?

This \$7 billion investment will generate over \$350 million in annual savings on electric bills for overburdened households. The program will reduce 30 million metric tons of carbon dioxide equivalent emissions cumulatively, from over four gigawatts of solar energy capacity unlocked for low-income communities over five years.

What is Alaska's solar energy program?

The program will span from urban, residential projects to community-scale, rural projects across Alaska. Implementation of solar infrastructure will reduce greenhouse gas emissions across the state while providing low-income and disadvantaged communities access to renewable energy.

Is solar for all a national program?

Some states and communities have already had Solar for All programs, but the \$7 billion in grants authorized by the Inflation Reduction Act and awarded this week by the US Environmental Protection Agency will allow for a national adoption of the model. What is Solar for All?
